The position

RBC Global Asset Management (RBC GAM) is the Royal Bank of Canada's asset management division. RBC GAM's internal Digital Solutions and Client Technologies team builds and enhances digital products that support our distribution partners across the company.

We are seeking a Digital Product Manager to join a seasoned product team supporting the Retail, Individual Investor Business (Branch channel). In this role you will help translate digital strategy into actionable roadmaps and support the end-to-end delivery of digital products and platforms in a dynamic, test-and-learn environment. You'll partner closely with engineering, design, and cross-functional teams to advance RBC GAM's digital transformation objectives.

Responsibilities

- Support and help with managing the roadmap and delivery of products for assigned digital initiatives, translating the strategic vision into product requirements, timelines and delivery steps.
- Contribute to product prioritization, compromise implementation and product life cycle release planning.
- Daily partner with engineering teams on sprint planning, late grooming and technical feasibility; write and refine user stories with clear acceptance criteria.
- Help define and track success metrics and KPIs, supporting accountability for product performance and outcomes.
- Champions a test and learning approach — help design and execute experiments to validate assumptions and iterate on the database.
- Collaborate with design, research and engineering partners to engage users in decisions on competitive products and analyses.
- Communicate the vision and value of the product to various audiences, including high-level stakeholders in the organization, through clear presentations and data visualization.
- Establish strong working relationships between operational units to ensure harmonization and foster inter-functional collaboration.

Qualifications

Requirements

- 3+ years of experience in digital product management, with an exposure to full product ownership and delivery of digital products from the concept to launch.
- Practical knowledge of the investment/asset management space, particularly mutual funds and ETFs.
- Practical experience with agile delivery and product management tools — Jira, Confluence and Figma.

- Strong written and verbal communication skills, with the ability to engage and influence senior stakeholders.
- A self-start that can manage competing priorities independently and thrive in a fast, test-and-learn environment.

Assets

- Experience in providing digital products in financial services, asset management or asset management.
- Financial acuity — ability to contribute to business case studies and to define the value of products in financial terms.
- Awareness and curiosity about emerging technologies, particularly AI and its applications in the product and customer experience.
- Certification of the product owner / Scrum and knowledge of the product analysis tools.
- Technical fluency to engage in architecture and data / analytics discussions.

Pay and benefits

- A comprehensive total premium program including flexible premiums and benefits.
- Leaders who support your development through coaching and training opportunities.
- The ability to produce a significant and lasting impact.
- A dynamic, collaborative, progressive and efficient team.
- Access to a variety of job opportunities in enterprises and geographies.

Job Skills

Agile, Analytics, Artificial Intelligence (AI), Atlassian Confluence, Atlassian JIRA, Digital Product Management, Digital Products, Figma, Investments, Product Management, Product Ownership, Product Roadmap, User Requirements

RBC accepts applications until 11:59 p.m. on the day before the posted deadline.

Compensation for this position (including salary and discretionary/variable payments) will be determined by factors, including but not limited to candidate's experience, skills, registration status, performance, individual goals, market conditions, and business needs.

Pay Range

The expected pay range for this position is

$80,000.00 - $130,000.00

The pay scale provided is that of the principal workplace mentioned in the Additional Employment Details section of this assignment. Pay scales may vary depending on location. If the assignment lists several locations, a recruiter can confirm the availability of the relevant role and pay scale for the additional locations listed. RBC supports pay transparency and we strive to ensure that all pay scales are competitive, fair and equitable.

You have the potential to win RBC's discretionary variable pay program, which gives you the opportunity to increase your total pay, provided that businesses meet their performance targets and achieve your individual goals.

Our Employment Opportunities

RBC works as One RBC and follows five shared values: putting clients first, integrity, collaboration, respect and excellence. As one of the world’s largest and most successful banks, it sees inclusion and different perspectives as important to continued growth. RBC supports staff in doing their best work, working together, innovating and developing professionally. Its policies and programs foster respect, belonging and opportunities for everyone to create value for clients and communities.

Talent community

People who join RBC’s talent community can receive new postings, career advice and recruitment event updates tailored to their interests.

RBC’s careers portal shares information about career paths and how its teams contribute to client and community well-being.

RBC is accepting applications for an existing vacancy. Qualified applicants may hear from the recruitment team for a more detailed review of their résumé.
